

LockNote Premium Plan Proposal

Recommended feature packaging and monthly pricing

This proposal keeps LockNote useful as a complete offline notes app, then creates two clear upgrade reasons. LockNote Plus is for account sync and collaboration. LockNote Pro includes everything in LockNote Plus and adds media-rich note features.

Recommended Positioning

Free: For users who want a complete private, offline notes app on one device.

LockNote Plus: For users who want account access, cloud sync, multiple devices and collaboration.

LockNote Pro: For users who want all cloud features plus image-based and media-rich notes.

Delivery Status

The Free feature set is implemented. Most LockNote Plus account, sync and sharing functions are implemented, but production backend deployment and live multi-device verification are still required. Features marked planned, including all LockNote Pro media features, are not yet implemented. Pricing in this document is a proposal for review.
